

THE GRAND JURY AFTER OPERATORS

Chicago Prosecuting Attorney Does Not Spare Millionaires at Examination in Coal Matter.

MEANS BUSINESS

Rich Men Are Compelled to Testify Against Themselves, Before the Special Panel.

(Special By Scripps-McRae.) Chicago, Jan. 10.—Alleged coal conspirators faced the grand jury this morning and were forced to answer questions designed by the prosecuting attorney to bring about their own indictments. There were forty mine owners and operators of mines examined by the special grand jury that had been called for the purpose.

Others Called Whole sale dealers and retailers had also been called before the jury in order to appease the clamor of the people who hold all coal men as accountable for the suffering and the shortage of the supply. From the examination of these men it was demonstrated that the mine owners were the ones considered guilty.

Mostly Millionaires Most of the witnesses were millionaires and are prominent in church and social affairs. There are well known philanthropists among them and many of them are business men of the highest standing.

Is Reluctant Despite the high standing of the witnesses the states attorney is leaving no stone unturned to secure their indictments on the charges of criminal conspiracy and will do this if he can convince the grand jury that they are guilty.

Has Figures The Attorney General is assisting in the prosecution and has figures that show that it only costs one fifty a ton to place bituminous coal in the city and three fifty a ton to have anthracite coal in the yards here from any of the mines in question.

Leave Town A dozen of millionaires who were summoned to appear have left the city or are in hiding and can not be found to testify before the jury. Two more deaths from freezing were reported to the police early this morning.

WITHDRAWS OFFER OF PROFIT SHARING

American Window Glass Company Finds Plan It Advocated Is Not Successful.

Pittsburg, Pa., Jan. 10.—Official announcement has been made of the withdrawal by the American Window Glass Company of the 5,000 shares of common stock given to the Window Glass Workers' association under certain conditions early in 1900.

This was one of the profit-sharing propositions made to workmen by large corporations. Under it the participants were not asked to invest any money, the only requirement being that the workers assist the company in operating its plants to nearly their capacity. The workers' organization was to have representation on the board and the stock, which was turned over to the association at \$20 a share, was to be paid out of the dividends.

The American Window Glass Company owns factories with a capacity of 1,700 pots and has been able to operate only about 1,000 during the last three years on account of the inability of the workers' organization to supply skilled workmen, many of the workers being employed in independent factories.

BILLIONAIRE IS DYING IN AFRICA

The Richest Man in the World is Very Sick in Johannesburg.

South Africa. London, Jan. 10.—Alfred Beit, the London and South African billionaire now on a business trip to Johannesburg, Transvaal republic, suffered a stroke of apoplexy in that city yesterday. The first report of his illness was alarming, the dispatches stating that he was dying.

Dr. Jameson, one of his business associates, went from Cape town to Johannesburg by a special train to see Mr. Beit. Later reports, however, indicated that the billionaire's condition was more reassuring.

The firm of Wernher, Beit & Co. of this city confirmed the announcement from Cape Town of the serious illness of Mr. Beit, and said that the latest reports received regarding his condition were less alarming.

The first news of Mr. Beit's illness had a depressing effect on the stock exchange. He is the recognized head of the diamond and gold mining interests of South Africa, and his death could not fail to disturb the condition of the market. Prices of shares improved at once, however, on the receipt of more favorable news.

NO PITY SHOWN FOR POOR FAMILY

People's Gas Company of Chicago Have Fuel Supply Shut Off.

Chicago, Jan. 10.—Israel Crahan, a Frenchman, 30 years old and a helpless cripple, lives in a miserable hovel of a frame building at 36 Thirty-seventh street. His wife, nearly as helpless and nearly as old tries to keep her husband and herself alive by washing clothes. The Peoples Gas company has been in the habit of supplying them with gas for a tumble-down stove—at the customary price. They have fallen a month behind in the payment of their bill. Yesterday, the coldest day the city has known this winter, employees of the company went to the place and shut off the supply, leaving the woman in tears and on her knees beside the cold stove, with the man staring blindly at her.

Crahan and his wife would have frozen to death last night but for the care of neighbors as poor as themselves.

RACIAL FEELING IN THE SOUTH

Appointment of Negroes to Office Causes Much Animosity Among Prominent Citizens.

RETAINS MRS. COX

Colored Postmistress' Resignation Is Not Accepted by the Washington Officials.

(Special By Scripps-McRae.) Washington, Jan. 10.—There was grave discussion at the cabinet meeting of the southern situation as created by the appointment of Dr. Crum to the collectorship of Charleston, S. C., and by the President's action in connection with the postoffice at Indianola, Miss. The President has not decided to withdraw the Crum nomination, and no action has been taken to reopen the Indianola post-office.

Oppose the Negroes.

It is admitted that the criticism of the appointment of Dr. Crum has caused an uncomfortable feeling in administration circles. The whole South has been aroused by the selection of the colored doctor, when everybody was hoping that sectional feeling would be allowed to sleep. Much of the trouble is laid at the door of James S. Clarkson, surveyor of the port at New York, who has been taken into the confidence of the administration on the question of patronage in the South.

Defends the President.

In extenuation of the appointment a friend of the President said that the President had appointed colored men to office in the North. When pressed to specify he said a colored man had been named as district attorney at Boston. An investigation shows that the President did not appoint colored men district attorneys, but did make one an assistant district attorney. No member of the administration has been able to point out a single instance where a colored man has been collector of a port or postmaster in a northern state.

Mrs. Cox Holds Office.

Republican senators and members of Congress refuse to discuss the Crum appointment. On the other hand, Democrats are very outspoken. It was decided not to accept the resignation of Mrs. Cox as postmistress at Indianola, Miss., on the ground that such action at this time would establish a bad precedent.

## JANESVILLE MEN ARE HONORED

VICTOR P. RICHARDSON AND A. P. LOVEJOY ELECTED OFFICERS

### AT MANUFACTURERS' MEETING

Mr. Richardson Is Vice-President; Mr. Lovejoy One of the Board of Directors.

The manufacturers of Wisconsin met yesterday in the rooms of the Merchants & Manufacturers' association in Milwaukee and formed an association for mutual intercourse and protection. Nearly 100 manufacturers, representing twenty-seven cities of the state, took part in the meeting. While those in attendance say the organization is solely for mutual benefit, some of the politicians expressed the opinion that its object was to assist the railroads in the coming fight against an increase in taxes. Frank Bull of Racine said yesterday afternoon. In speaking of the objects of the meeting:

**The Objects**  
"The need of a perfect organization of the manufacturers of the state has long been felt, but never definitely undertaken until now. We believe that such an association will be successful. Wisconsin stands seventh in manufacturing importance and there is no reason why she should not have a good state organization to look after matters that directly affect all manufacturing interests."

**Other Statements**  
T. M. Blackstock of Sheboygan said that the manufacturers of Wisconsin ought to know each other better and have some mutual interests which could be looked after by organization better than by individual effort. This he said, was the only purpose of the meeting so far as he had learned.

**The Constitution**  
The constitution was adopted before adjournment, which was followed by a dinner at the Hotel Pfister. When the cloth was removed the business of the meeting was taken up. A greeting was received from the Illinois Manufacturers' association:

**Officers Elected**  
President, Frank Bull, Racine; vice president, Victor Richardson, Janesville; secretary, W. J. McConnell, Green Bay; treasurer, F. B. Yates, Beloit; executive board, M. Bean, Milwaukee; M. J. Herschelmier, La Crosse.

## WILL TALK UPON ENTERTAINMENTS

Rev. Barrington Will Discuss Legitimacy of Forms of Money Raising for Churches.

Fairs, suppers and entertainments as a legitimate source of church income, will be among the topics which will be discussed in the Sunday evening discourse at Christ church. Rev. A. H. Barrington has propounded to a number of merchants a series of questions designed to indicate whether or not it is practicable to conduct a religion on a business basis.

The answers to these questions will be woven into the sermon. In addition to the question of income, the rector of the church has asked whether there is not a reprehensible waste in the various divisions of Christianity. But if Christian unity were possible, is it desirable? Is there a common faith?

Rev. Barrington also asks whether business push and energy are not as applicable to religion as to the conduct of a dry goods store. Is it possible for religion to manage itself, any more efficiently than a mercantile establishment. These are a few of the questions which have been asked, and the replies will be given tomorrow evening.

## THE CONVENTION CLOSED YESTERDAY

Interesting Papers by J. W. Hutchins, W. L. Ames, Aaron Jones and Carrie B. Smith.

The Rock County farmers convention came to a close yesterday at Moltion Junction. The attendance at both the morning and afternoon sessions was large. The morning session was opened with music under the direction of Mrs. T. W. North, followed by a prayer by Rev. L. A. Platts. J. W. Hutchins read an interesting paper on "Clover, Corn and Cattle," and showed the value of clover and corn as a cattle food. Earl Arlington followed with a recitation. Mrs. Carrie B. Smith had for her subject: "Heard Along the Lines" and W. L. Ames talked on "Cutting Cross Corners on the Farm, or Ways and Means in Farm Economy."

The afternoon session opened with music after which the Hon. Aaron Jones of Indiana, master of the National Granger, addressed the gathering on "The Grange and Its Mission," and gave an interesting talk. He was followed by Miss Belle McWilliams who gave a recitation and she was followed by Mrs. V. H. Campbell of Evansville, who described a trip to the Pacific coast. The convention then disposed of a number of resolutions and the contents of the question box and adjourned.

These conventions result in a great deal of good to the farmers and many things of vital importance in their work is brought prominently before them. The convention was fully up to the standard of those of former years, both in attendance and addresses.

## ARM WAS TORN OFF IN CORN SHREDDER

Burt Otis, of the Town of Rock, Met with a Horrible Accident, Friday.

Burt Otis, of the town of Rock, a young man nineteen years of age met with a most horrible accident on Friday afternoon, his left hand and forearm being literally chewed to atoms in a corn shredder. The arm was cleanly severed half way between the wrist and the elbow and above that point, great holes were torn in the flesh so that it was necessary to amputate the arm half way between the shoulder and the elbow.

**How It Happened**  
The accident occurred at 3:30 o'clock on the Jerry Blunk farm, southeast of this city near Afton. Young Otis was feeding the corn shredder and in some way, which no one seems able to explain, his left hand got caught in the machine. When he succeeded in freeing his arm the lower part of the forearm was gone entirely and much of the remaining arm had been terribly lacerated.

**A Gritty Young Man**  
The injured man never lost consciousness. With remarkable presence of mind he told his fellow workmen how to tie a handkerchief above the wound and twist a stick in the knot so as to stop the flow of blood. His directions were quickly followed and while he was being taken to the home of his father, George Otis, whose farm adjoins the Blunk farm, one of the men kept tight hold of the stick.

**Physicians Summoned**  
A message was at once dispatched to this city for Dr. James Gibson and he assisted by Dr. W. H. Judd, amputated the arm. The temporary bandage was kept in place until after the operation and the tying of the arteries so that comparatively little blood was lost.

**His Bravery Admired**  
During the entire ordeal preceding the amputation, the injured young man never lost his courage. His true grit and the readiness with which he proved himself able to meet the emergency won the admiration of his associates and of the attending physician. He is the eldest son of Mr. and Mrs. George Otis and is a very popular young man. In this calamity which has come to him, crippling him for life, he will have the sincere sympathy of many friends.

### City League Re-Opens

On next Tuesday the city league expects to resume the tournament series. The tourney has reached a point where it is everybody's game, and three teams have about an equal chance at the first honors. Some fast games are expected. There has been some little discussion regarding the last game between the Badgers and the Belmonts. The former aggregation had so many substitutes that they claim the right of playing the match over again.

## CHIEF KLEIN IS MAKING CHANGES

He Has Rearranged the Horse Stalls So as to Avoid the Smells.

Chief Engineer Klein is making some much needed improvements in the West Side fire station. The stench which arose from the horse stalls was endured by the city officers and the council for a number of years and no remedy for the evil suggested itself.

Chief Klein has made a study of the problem and feels quite certain that he has solved it.

The floors of the horse stalls have been taken up, and a series of perforated pipes leading to the sewer laid underneath. These pipes are so arranged that everything drains into them and the stalls can be flushed out every day, to get rid of all refuse and clean them of all offensive odor.

The chief feels quite confident that when this is done, the men's sleeping quarters up stairs, will be rid of all smell arising from the stalls. It is an improvement that has been long needed around the house to get rid of the offensive smell.

### Other Opinions

Every once in awhile we read of cooking mains taking place in this county. Recently one was held in which Beloit and Janesville men participated with their birds. Both cities are disgraced by having citizens who can indulge in such brutal sport. There may be some excuse for the birds as they know no better, but there can be none for a set of such disreputable men of low instincts.—Rock County (Clinton) Banner.

### Man And Wife Wanted

Man and wife wanted for institution, board, lodging and washing. Wages to commence, four hundred and thirty dollars, (\$430); increasing to five hundred and ten (\$510) per year. Three good references required. Man must be a good all around farmer and tobacco raiser. Wife a good plain cook. Permanent position to the right parties. Apply "Superintendent," Drawer E, Viroqua, Wis.

## EIGHTEENTH IS DAY SET NOW

The Milwaukee & St. Paul Railroad Will Not Move Into Their New Depot for Another Week.

The Chicago, Milwaukee and St. Paul railroad will not get into their new station Sunday the 11th, as expected. The delay is caused by the nonarrival of the electric light fixtures and the delivery by the Jeffries Co. of some of the lumber for the interior finish of the building.

The company had the assurance of the contractors that they would have the building ready for occupancy by the 11th and expected to get into it by that time.

The present delay puts them back a week but they are assured that they can get into the station by the eighteenth. The company have all their work about the platforms that can be completed this winter finished, and the balance of the work will be done as soon as spring opens up.

## ROCKFORD BASKET BALL MEN COMING

Association Team Expects to Play the Forest City Five on Thursday of Next Week.

Every member of the hand ball team of the Y. M. C. A. is spending every spare moment in the hardest kind of practice. On Thursday or Friday of next week the association will play its first match with an out-of-town five, the city represented in this case being Rockford. The association team from that place has written for a date, suggesting Thursday as a convenient time. Athletic Director Mack wrote back that that would be satisfactory and final arrangements will probably soon be made.

The association team is made up of old players who have mastered all of the tricks of the game. They have played several practice games with a team made up of some of the crack high school men, and have not emerged ingloriously. There is every reason to believe that the match will be worthy of a good audience. It will be played in the Y. M. C. A. "gym."

## "My Sons,"

said a great business man, "are my partners and they need all the strength and courage I can give them," and he forthwith paid for a \$1,000,000 policy in The Mutual Life Insurance Company of New York. Not without the most careful investigation, however, extending over six months. He was convinced by just such facts as led the President of a National Bank in New York to make the curious and shrewd provision in his will, which is contained in "A Banker's Will." ## MILWAUKEE WAS NOT ON THE MAP

St. Paul System's New Advertising Map Failed to Locate the Cream City.

Milwaukee is on the map again. The city that has been made famous by an amber-colored beverage was not on the map—the new transcontinental service map of the Chicago, Milwaukee & St. Paul railroad—until 10 o'clock today, says the Chicago Evening Post.

The joke is on the passenger department of the railroad that put out one of the best looking and most attractive railroad "ads" of the new year, showing the route of the new California service instituted last Sunday without paying any attention to its connections and lines into Milwaukee and north of that city. St. Paul and Minneapolis, Kansas City—eaten Sioux City—were given in bold-faced type in the new "ad," but the artist had drawn a heavy black line from Chicago to the twin cities. Milwaukee, the birthplace of the great system—the home of its general offices for years and still its official headquarters, was not on the map, and the plates for the "ad" had been sent out to thousands of publications—even to London and Paris. Citizens of the Cream city had their attention directed to the omission last night, and today some good-natured protests were received in the passenger office in the Old Colony building.

"It was all due to the mistake of the artist in correcting the lines of the map," said one official. "He wanted to make it as concise as possible, and in trimming the edge of the lake accidentally cut off the word 'Milwaukee.' We guess the people of Milwaukee all know how the St. Paul road feel toward them. They have been the loyal friends of the road for several decades and will readily accept this explanation. But they will never know how much this mistake will cost us in worry and money. The plates for the advertisement were all made January 2 and 3 and sent out all over the United States and to our foreign offices, and contracts made for thousands of insertions of the transcontinental service ad. All of these will have to be changed. But we began to put Milwaukee on our new map at 10 o'clock today and soon everybody that reads will see Milwaukee's name in big black letters where it would have been but for the mistake of the artist."

No trouble to prepare quick breakfasts if you have Mrs. Austin's famous Pancake Flour, ready in a moment.

### LAW DECISIONS

**Use Imprisonment—What Constitutes**  
A man arrested for a criminal offense, and placed in jail without at first taking him before a magistrate as required by law. He was detained two days pending an examination by physicians to determine his mental soundness, and on a promise to go home and behave himself he was released. In an action against the sheriff for false imprisonment, it was held that the failure of the sheriff to take him at once before a magistrate did not convert a legal into an unlawful arrest, so as to make the sheriff liable in damages. 53 Atlantic Rep. (Pa., Judge Potter) 501.

**Injury to Employee—Burning Buildings**  
An employer so negligently constructed a building as to allow it to take fire. An employee in the building ran out to give the alarm, falling which, and for the purpose of using a telephone, he ran back into the building, which was enveloped in flames, where he was so severely burned as to cause his death. Held, that the employer's act in returning to the burning building, and not the faulty construction of it was the proximate cause of his injury, and that the administrator of his estate could not recover damages for his death. 70 Southwestern Rep. (Tenn., Judge Beard) 616.

**Insurance—Incontestable Policy**  
Where an incontestable insurance policy was secured by fraud, and the company did not elect to rescind the same during the life of the insured, and on her death, under an impression that it could not defend an action on the policy, paid the same, it was not entitled to maintain an action against the administrator of the estate for deceit or to recover amount of the policy paid and other damages. 70 Southwestern Rep. (Ky., Judge Burnam) 628.

**Railroads—Keeping Fences in Repair**

Where a railroad company makes an agreement with a land owner under which it is its duty to erect and keep in repair a fence along the right of way, and the fence is permitted to remain out of repair, so that a horse of the tenant of the land owner is injured, the company is liable for the damages sustained by the tenant. 70 Southwestern Rep. (Ky., Judge White) 631.

**Criminal Law—Attempt to Escape—Judging Guilt**

Evidence that six weeks after the murder with which defendant was charged, and twelve days before the term at which he was to be tried, he attempted to escape, is admissible in evidence against him as a circumstance to be considered by the jury with the other facts tending to establish guilt. 42 Southwestern Rep. (West Va., Judge Caldwell) 565.

**U. S. Supreme Court—First Hawaiian Case**

The United States Supreme Court on December 1 delivered the first opinion ever rendered by it in a case coming up from a Hawaiian court, says the Washington Post. Thomas B. Smith was domiciled in Hawaii, and while there took out a life insurance policy. He afterwards died in San Francisco. Administrators were appointed in both Hawaii and New York. The insurance company

refused to pay the money to the Hawaiian administrator on the ground that by the terms of the policy it was payable at its New York office. The territorial court's decision was opposed to this contention, and the Supreme Court did not disturb the case as thus left, the court dismissing the writ on the ground that no federal question was involved.

### CURES CATARRH

"Hymel the Most Wonderful Cure for Catarrh Ever Discovered," Says Mayor Ward.

Do not try to cure catarrh by taking drugs into the stomach; it cannot be cured in that manner. The only way in which this too common disease can be cured is through a direct application that will kill the bacilli of catarrh and prevent their growth.

Hymel is the only known method of treatment that accomplishes this. It is the simplest, most pleasant, and the only absolute cure for catarrh that has ever been discovered. Thousands of unsolicited testimonials have been received from the most prominent men and women in the country who have been cured by this remarkable remedy. Ministers, bankers, lawyers, even eminent physicians have sent strong testimonials as to the remarkable powers of Hymel to cure catarrh.

Former Mayor Emery M. Ward of Trenton, N. J., writes: "You have my permission to say that I believe 'Hymel' to be one of the most wonderful cures for catarrh and throat trouble that has ever been discovered. In my case the effect has been marvelous. I enclose you money order for two outfits for friends of mine to whom I have recommended 'Hymel' and who I am anxious shall have the benefit of this remarkable panacea."

The complete Hymel outfit costs but \$1.00, consisting of an inhaler, dropper and sufficient Hymel to last over a month. This will effect a cure in ordinary cases, but for chronic and deep-seated cases of catarrh, longer use is necessary, and then extra bottles of Hymel, (a month's treatment) can be obtained for 50 cents. It is not alone the best, (it might be called the only) method of curing catarrh, but it is also the most economical.

King's Pharmacy have so much confidence in the power of Hymel to cure catarrh, that they will for a limited time, sell this medicine under their personal guarantee to refund the money if the purchasers can say that it did not help them. King's Pharmacy.

## FLORODORA AT THE MYERS SHOW HOUSE

Large Audience Received the Popular Musical Comedy Well—Not a Number One Company.

Florodora visited the Myers Grand Opera House on Friday evening, but it was not Florodora that has come before. There was a double sextette of more or less pretty maidens; there was a Tweedledee who won many a smile by his half Hebraic and half Yankee methods for turning a penny, honest or otherwise; there was a pretty city widow sort of a Lady Hollywood, an amorous Angela and a romantic Dolores.

But only in a general way did the production resemble the "real thing" which has been here before. Judged by itself it was not bad, but compared with the original company it was insignificant. It was interesting handsomely staged, and elaborately tailored; the music was jingly, brisk and sparkling. But it was not superlatively so.

It simply means that Florodora has been on the stage for so long that the proprietors dare to send out, among their first-class companies, some others. Janesville received one of the others.

Those who made up the audience which filled the opera house seemed well repaid for their attendance. They did not consider every musical number worth a second hearing, nor did they applaud all of the witticisms violently enough to blister their palms, but they did respond enthusiastically to several songs.

As a matter of course, the tell Me, Pretty Maiden, double sextette was given a double recall, as was "Under the Shade of the Palms." Encores were demanded of a few other songs, but that distinction was not indiscriminately bestowed.

What would you think of your grocery man if he sold you sand for sugar? What do you think of a druggist, who offers you a substitute for the Madison Medicine Co's Rocky Mountain Tea. Smiths' Pharmacy.

**Children's Services**  
In connection with the mission to be held in the Episcopal churches of this city, beginning on Jan. 23rd, there will be a series of children's services held every afternoon at 4 o'clock. The missionaries have thoroughly mastered the Dupanloup system of catechizing and never fail to interest the children. As with the other mission services, the children's service is not limited to the scholars in the Episcopal Sunday school. All the children of the public schools are invited to attend, as well as their parents, and all interested in the instruction of children.

**The Winters We Used to Have**  
I dunno why I feel 'th' change, I guess I'm gittin' old, But nowadays the winter's mild, the weather's never cold; What snow that does fall nowadays is rainy like and thin, It lasts about half a day and then it's gone agin.

I like the snow we used to have, I've seen it two feet deep; Ah! them was the nights to go to bed and git your solid sleep; And them was days to get a sleigh and harness up the mare, An' turn her loose right down the road to let her rip and tear, That snow was hard and flaky, too, and smooth well, just like glass There wasn't any nag around that my nag couldn't pass. But nowadays at winter time the plants are fit to bud, And if there's sleighin' to be done, you do it in the mud. I tell you hen's teeth's putty scarce, but not more so than snow, An' winter time ain't what it was some thirty years ago.

## NO MAN IS STRONGER THAN HIS STOMACH.

The stomach is the vital center of the body. It is the organ from which all other organs are fed. A weak stomach means a weak man. There never was a strong man with a weak stomach. What is called "weak stomach" is in general a diseased condition of the stomach and other organs of digestion and nutrition, which prevents the proper digestion of the food which is taken into the stomach, and so reduces the nutrition of the body. When all food is taken away the body starves. When the food eaten is only digested and assimilated in part it only nourishes the body in part, and so the body is partly starved. And this starvation is felt in every organ of the body dependent on the blood which is made from food.

The great variety of the cures performed by Dr. Pierce's Golden Medical Discovery is due to its remarkable power to heal diseases of the stomach and allied organs. It cures through the stomach diseases seemingly remote, but which have their origin in a diseased condition of the stomach and the other organs of digestion and nutrition. "Weak" heart, lungs, kidneys and weakness of other organs is cured with the cure of the weak stomach.

Mr. Thomas A. Swartz, Box 103, Sub-Station C, Columbus, Ohio, writes: "I was taken very sick with severe headache, then cramps in the stomach, and food would not digest, then kidney and liver trouble, and my back got weak so I could scarcely get around. The more I doctored the worse I got until six years passed. I had become so poorly I could only walk in the house by the aid of a chair, and I got so thin I had given up all thinking that I could not be cured. Then one of my neighbors said, 'Take Dr. Pierce's Golden Medical Discovery and make a new man out of yourself.' The first bottle helped me so I thought I would get another, and after I had taken eight bottles I was weighed and found I had gained twenty-seven (27) lbs. about six weeks. I have done more hard work in the past eleven months than I did in two years before, and I am as stout and healthy today, I think, as I ever was."

Snow tonight and Sunday warmer.

**AS OTHERS SEE US**

"What do you think of Mrs. Brown's new coat? I notice she had it on at church last Sunday, and I thought she looked very well."

"Oh, I don't know. Mrs. Brown has a figure like a bale of hay. Her coat is all right, but she wouldn't look dressed up in anything."

The ladies were chatting in a gossip way at an afternoon club, and about every family on the street had run the gauntlet of criticism or commendation.

One demure little body, who had taken but little part in the conversation, was finally appealed to for an opinion, and she said:

"I was thinking that it is so easy to talk and criticize, that probably none of us are exempt. I happen to live neighbor to Mrs. Brown, and she is one of the kindest women I ever knew. The smile on her face is as genuine as her heart, and she always looks well to me in any costume. I have been interested in your conversation, and I was thinking just as you spoke, that possibly if I were not present, my ears would burn a little. It is somewhat difficult to see ourselves as others see us."

The little lady expressed a truth that is not always recognized. Deformities of every description, are so much more conspicuous than virtues, that they easily attract attention.

The man who walks down the street, absorbed in thought, with stomach protruding, like an alderman, looking neither to right nor left, soon gains the reputation of being haughty and aristocratic, and yet he is frequently a man of warm impulses and cordial geniality, when the shell is broken, and you get down to where the man lives.

The woman who wears a seal skin, is envied by her associates and not unfrequently misjudged as to the quality of the woman beneath the coat.

In this busy rushing age, the effort to keep up with the procession, is strenuous, and watered stocks are not the only classes of securities that represent less than face value. Shams are numerous, and many men and women pass at par, who would not bear close inspection.

These shams are not all confined to commercial and business life. It is difficult for a man in business to win success by deceptive methods, and the fact has long since been recognized that if this class of men are not honest from choice, that they are compelled to be honest as a matter of policy.

And yet there are many honest business men who work hard year after year without seeming to make much progress.

There is no deception about their methods, but there is a screw loose somewhere, and the public is not long in finding it out.

It would pay this class of men to join the crowd on the street, and look at themselves occasionally as others see them.

Two or three ladies are passing. One of them says, "Come in here, I want to get some trimmings for a hat."

Her companion says, "Oh, don't stop there. He never keeps up his stock, and you can't find what you want, and if you did, they don't act as though they cared whether they sold you anything or not. Let's go where we can find the goods and pleasant people to deal with. I have the dyspepsia myself, and I never want to deal with a dyspeptic."

It was just a pointer, but it contains a whole chapter of popular criticism.

That man who is hitching his horse in front of the store, looks as though he might want a nice lot of groceries, but listen to his wife as she climbs out of the buggy and says:

"John, I'm going across the street to trade. I like to deal with a man who has fresh goods, and who keeps his store as clean as I keep my kitchen. You can go in there and buy your tobacco if you want to but I'm going to stock up the house from across the way." Just another glimpse through other people's eyes.

Nothing said about dishonesty in either case, but both suggesting elements of weakness.

The shams and deception, however are of a different type, and they have more to do with civic, social and religious life.

There is just now going on in the city, an investigation of municipal affairs. No open charges of dishonesty have been preferred, and the parties most deeply interested are as unconcerned as non-residents.

If they should mingle with the crowd and look at themselves from the view-point of other eyes, it might be a revelation. Some of the questions frequently raised, might be as perplexing as they are to the general public.

The outskirts of that little group of the men on the corner is a good

place to listen. One of them is saying:

"How can the council let a contract for street improvements to one of its own members, who is in company with an outside contractor and another one says, 'Oh, that's easy. How much bonus did the contractor pay for the privilege of building the city hall?' And another one says, 'Ask McAlpin.'"

The atmosphere is charged with this sort of queries, and the only question that appears to be definitely settled is, that it required the services of five men and \$15.00 to buy a horse.

There is considerable fog on the outside of the pavilion that time will probably dispel, and the sense of vision will again be normal.

The shams in society are of different type, and the people most deceived, are the people who practice them.

The girl who is all smiles to her best young man, and all frowns to her mother in the kitchen, will be a girl at 30, envious of the couple across the street, where the same young man represents the head of the household.

The boy who smokes cigarettes and hangs around the saloon as a common loafer, blinds no one but himself. He will enjoy the luxury of a cob pipe, on an income of a dollar a day, when he settles down to business.

The young couple starting out in life on a thousand a year, will be in luck if the income holds out 20 years later, unless they get out of the class that is travelling at a three thousand dollar pace.

There are all sorts of shams in society but they are never very deceptive.

The church is not free from this element, and the sacred precincts are more susceptible to imposition than either society or business.

Christianity, like honesty, is every thing but a profession. The emblems of Godliness, are neither a long face, a long prayer, nor loud proclamation.

It is not a loose garment put on late Sunday morning, and laid away Sunday evening.

The pastor of a city church said recently to his officary, "What would you do to church members who pay no attention to church obligations, ignoring both moral and financial support," and the only answer was an echo, for the question has perplexed the church in all ages, and never more so than today.

These are not the only people connected with churches, that are a hindrance to effective work. They represent the dead wood, and are never perniciously active.

A smaller element, and more dangerous, was denounced by the Master 2000 years ago as "Whited sepulchres and hypocrites."

People who make loud professions, but are destitute of possession. They usually deceive no one but themselves.

While idle gossip is cruel, and borders on wickedness, it is safe to assume that the consensus of public opinion is usually correct.

The estimate placed upon character and ability will always bear the scrutiny of close inspection.

When a man sours on his town or his country, and thinks them inferior, the fault is always with the man.

When he becomes too pure for his party or too good for his church, it is never the fault of the church or party. Both existed before he became a disgruntled member, and they will continue to exist after he sleeps in a grave that is not congenial.

It is well occasionally to get outside of ourselves and view the situation from the vantage ground of public opinion. When we see ourselves as others see us, and profit by the vision, life will contain more harmony and less discord.

**IT PAYS TO BE GOOD**

The editor of the Ashland Press comments on the editorial of the Gazette to the effect that it pays to be good. Perhaps the editor of the Press does not understand the terms used never having heard of such a paragraph in his "neck-of-the-woods." Just the same the Gazette repeats that it pays to be good and if the Press will try it it will see the difference at once.

## ODD SERVICE BY BAPTIST LADIES

CALENDAR MEETING HELD BY THE MISSION CIRCLE.

### REPRESENT MONTHS OF YEAR

Two interesting programs were separated by the serving of a Missionary Tea.

Quite unique was the thank offering held by the Baptist Mission circle of the Baptist church, in connection with the regular meeting on Friday. The meeting was held in two sessions, afternoon and evening, tea and a social hour intervening.

For the afternoon session Mrs. L. L. Leslie was the leader and the time was devoted to the regular mission study as outlined in "Via Christi." The period of the Reformation was the general topic and papers were given: "Martin Luther," Mrs. R. M. Vaughan; "Melancthon," Mrs. Marion MacDonald; "Francis I of France," Mrs. B. F. Dunwiddie; "The Massacre of St. Bartholomew," Miss Flo. Dunwiddie; and "William of Orange," Mrs. F. P. Welch.

There was a large attendance of ladies and at six o'clock they were joined by several gentlemen and a dainty picnic supper was served. After the supper, the time until 7:30 o'clock was devoted to an informal social, which was one of the pleasant features of the meeting.

**Calendar Meeting**  
The unique thank offering service was held in the evening and was called a Calendar meeting. At the beginning of the year twelve ladies in the society were appointed to represent the months of the year and large envelopes were given them. Then each lady secured four assistants, representing the weeks of the month, and to these ladies smaller envelopes were given.

The mite envelopes were turned over to the society at this meeting and the program given in this connection was an interesting one. The twelve ladies sat on the platform with their offering in a basket, decorated to represent the month assigned to them. The program was arranged to tell the story of the work in the different mission fields and between the different numbers, the offerings of the months were presented.

**Excellent Program**  
Mrs. Mary Lawrence presided at the evening session and the program included a selected reading by Miss Lulu MacDonald; "Mrs. Stanton's Thank Offering," by Miss Bertha Kimball; "Two Pictures" by Mrs. Fred Isaacs; an account of "McCongo's Conversion and Life" by Mrs. Frank Sadler; a selected reading by Miss Nellie Smiley; an article on Japan by Miss Gertrude Granger and a song by Miss Imogene MacDonald, her piano accompaniment being played by Miss Cora Anderson.

**Suggestive Baskets**  
Much interest was taken in the baskets in which the offerings were presented. Mrs. A. C. Campbell, January, had a basket covered with snow. Mrs. D. Conger's February basket was covered with valentines and around the top of the March basket, carried by Mrs. M. P. Leavitt, were small paper windmills. Grass and violets decorated Mrs. Gere's April basket, apple blossoms on Miss Chapman's basket told of the coming of May and roses, emblematic of June, adorned the basket carried by Mrs. C. D. Child.

**Other Months**  
July's basket, presented by Mrs. L. L. Leslie, was gay with flags. August, represented by Miss Crosby, brought an offering of pond lilies and grapes were selected by Miss Pratt to represent September. October's basket, belonging to Miss Herkimer, wore brilliant autumn foliage and November's basket was the most interesting of all, being out of a pumpkin. The month of November was assigned to Miss Mary VanBirk. December was represented by Mrs. J. A. Whiffon and her basket was covered with holly.

## PURSE OF GOLD WAS PRESENTED

### FROM WOMAN'S RELIEF CORPS

Supper and Joint Installation of Officers Enjoyed by Two Societies Friday Evening.

There was a very enjoyable gathering at East Side Odd Fellows' hall on Friday evening, the occasion being the joint installation of the officers of W. H. Sargent Post, No. 20, G. A. R., and W. H. Sargent W. R. C., No. 21 and the supper given for the members of the societies and their families.

The supper was served in the dining hall at six o'clock, including many dainties as well as the baked beans and other eatables without which no supper for old veterans would seem complete. The crowd which enjoyed the supper was large and the service was excellent.

**Purse of Gold Presented**  
In connection with the meeting which followed the supper, the Woman's Relief Corps perpetrated a happy surprise on the Post by presenting the organization with twenty-five dollars in gold. The gift was a slight token of appreciation of many courtesies extended by the Post to the Corps and the Grand Army was greatly pleased. The presentation was neatly made by Mrs. Mary Dunwiddie, president of the W. R. C., and the gift was accepted by A. F. Lee, the newly installed commander of the Post.

Past Commander J. L. Bear moved a vote of thanks to the ladies, which was given heartily.

The installation services were interesting. The old veterans took the obligation of their office first, Past Commander S. C. Cobb being the installing officer. Richard M. Vaughan, pastor of the Baptist church and the song service was sweetly rendered by Miss Cora Anderson and Miss Elizabeth Palmer.

## ICE BOAT RACE SATURDAY NEXT

IF WIND IS GOOD, IT WILL BE SAILED.

### IS MUCH SNOW ON THE ICE

Cup Has Been Donated, To Be Raced for by All Boats on Lake Koshkonong.

The amount of snow on the ice at Lake Koshkonong puts a damper on the ice boat racing for the present. The promoters of the affair are anxious to pull it off as soon as possible and will try it next Saturday if there is wind enough to carry the boats through the drifts.

**Cup Offered**  
The cup which was won by Roy Saunders last winter has been turned over to the Carcajou club and will be raced for again this winter. This cup, like the America cup for sailing yachts, is not of great value but it is esteemed by the party winning it far beyond its real value. During the last summer and fall considerable money has been spent by enthusiasts living about the lake and nearby towns for the purpose of getting a boat that could win this cup for the year as well as giving them sport on the ice.

**Janesville Represented**  
Janesville will be represented when the match comes off at least half a dozen boats being owned in this city. Newville also has several boats that have intentions on the cup and the boat owned by Tony Brown is said to be the best and fastest boat owned on the lake. Roy Saunders, the holder of the cup for the past year, has his boat in good trim and doubts the ability of any of the boats or their owners to get away from him this season.

## GENERAL CORBIN TELLS OF STRIKE

SAYS VIOLENCE WAS COMMON

Head of Pennsylvania National Guard Informs Attorney Darrow That His "Shoot to Kill" Order Meant Just What It Said.

Philadelphia, Pa., Jan. 10.—The nonunion miners closed their case before the anthracite strike commission, having presented 150 witnesses in the eight days, each of whom told of violence during the strike. The lawyers for the nonunion men made no reference to their demand for 20 per cent increase in wages.

The principal witness was Lieut. Gov. J. P. C. Gobin, brigadier general of the National guard of Pennsylvania. Gen. Gobin was in command of the Third brigade during the strike. He was on duty from July 20 until Nov. 1. He said an "excited state of lawlessness" existed in the regions, that disturbances were numerous, that the presence of the troops was absolutely necessary to preserve law and order, and that it was difficult to maintain the law even after all the troops in the state had been placed in the disturbed territory.

### Conditions During Strike.

During direct and cross examination Gen. Gobin had several tilts with Clarence S. Darrow, counsel for the miners. The witness said when he first went into the coal region with his men, as a result of a riot at Shenandoah, he was unable for a time to get vehicles to carry his supplies, teamsters refusing to furnish them. In Shenandoah and in the Panther Creek valley, he said, there was no civil authority at times. Committees of the union called upon him and assured him the strikers would give him all the assistance they could, but as far as he could remember they never gave him any help, nor did he ask them for any.

After his entire brigade had been called out, Gen. Gobin said, the situation became extremely serious, and he feared he could not cope with the situation if it grew worse. He so informed the governor.

### "Shoot to Kill."

The "shoot to kill" order issued by him, the general said, meant every word it said, and that the issuance of the order had a most salutary effect upon the communities which his soldiers covered. It had such a good effect that it was not necessary to fire one shot.

The order, he said, did not include the shooting of women and children. Mr. Darrow called his attention to the fact that the order did not except them, and the witness replied that his men were not engaged in fighting women and children.

### Right to Fire.

There was considerable cross fire between Mr. Darrow and the general over the right of a sentry to fire upon a man skulking about the camp of soldiers after dark. The witness finally gave it as his judgment that a sentry has a right to shoot in guarding the men in camp.

Mr. Darrow wanted to know if Gen. Gobin ever met certain coal operators. He was asked by Commissioner Watkins the object of his questions, and Mr. Darrow replied: "To show that his relations with the coal companies were much more friendly to the operators than to the workers."

"That is not true," warmly replied the general.

### FOR APPOINTMENT OF JUDGES

### Proposed Constitutional Amendment

### Introduced in Indiana Senate.

Indianapolis, Jan. 10.—Senator Dausman introduced a bill in the senate for a constitutional amendment providing for the appointment of supreme and circuit judges by the governor. Another bill introduced provides for the enforced use of voting machines in all state and city elections. A bill backed by the brewers seeks to repeal the clause of the Nicholson law allowing voters to give powers of attorney for signing their names to remonstrances against granting liquor licenses.

### Canada May Lift Coal Duty.

Ottawa, Ont., Jan. 10.—D. G. M. P., of Montreal, conferred with Premier Laurier regarding the advisability of removing the duty on anthracite coal. Sir Wilfrid promised to take the matter under consideration.

### Shoots Wife, Kills Himself.

Eldora, Ia., Jan. 10.—Joseph Foley, a wealthy retired farmer, shot his wife and then killed himself. She will recover. He married for his second wife a widow with whom he quarreled. She had sued for divorce.

### Girl Gets Damages.

Darlington, Wis., Jan. 10.—A jury in the circuit court brought in a verdict for \$2,000 for Miss Cora Covey, who brought suit to recover \$10,000 from George Crotty of Chicago for breach of promise.

### Macedonia Atrocities.

Vienna, Jan. 10.—Private telegrams received here from Macedonia say alarming reports of new atrocities are circulated daily, and that people are fleeing from the country in increasing numbers.

### Rice Lake Chronotype.

# Constipation

## Ruined Dr. Dill's Health.

It will treat you the same way. You can not be constipated and remain strong and well. Indigestion and dyspepsia are its symptoms. If you belch you have constipation. Dr. Dill first got constipation, then he lost his appetite, he became weak and sick, his kidneys went back on him and he had to give up his practice.

## Mull's Grape Tonic Cured Him

just as it will cure you. Constipation is the rotting of undigested food in the stomach. A physic won't cure. It makes it worse. Pills, Castor-oil, Salts and other such treatments are no good in a case like this. Dr. Dill tried them all. Mull's Grape Tonic will not physic a well man. Its action on a constipated person is quick and permanent.

### A St. Louis Doctor Tells How He Was Cured.

Gentlemen:—I beg to thank you for calling my attention to Mull's Grape Tonic, some time ago. My profession requires close application and confinement to the office, and after several years of this indoor, sedentary life, my health completely broke down; my stomach was bad, my liver out of sorts and I felt tired and worn-out all the time. When you first showed me Mull's Grape Tonic I was skeptical, but took your word for it, and now after taking several bottles, feel as well as I ever did in my life. It is a splendid medicine for the stomach and bowels, and the best general tonic I ever saw. I thank you again for calling my attention to Mull's Grape Tonic. Yours very respectfully,  
810 North Broadway, St. Louis, Mo.

DR. DILL, St. Louis, Mo.

This is not the only doctor who recommends this great cure. Mull's Grape Tonic is pleasant to take. It will cleanse the entire system of all disease. It will make strong muscles and solid flesh because it makes pure rich blood. If it fails, you can have your money back. The grape is the greatest flesh-builder known. Mull's Grape Tonic is in no way like cathartics and pills. Most people who are run down are sufferers from constipation. Cod-liver oil won't help them because it increases the constipation habit. Mull's Grape Tonic will positively cure.

For a large sample bottle send 10 cents to cover postage to Lightning Medicine Co., Rock Island, Ill. All druggists sell Mull's Grape Tonic. 50 cents a bottle.

## DEALERS PAY BILLS ON TIME

### FUEL CONTINUES TO BE SCARCE

Shortage in Coal and Coke Causes High Prices and Curtails Purchasing Power of the People—Affects Cost of Manufacture.

New York, Jan. 10.—"Collections are notably prompt at all leading centers, bearing testimony to the strong financial position of the nation's industries at the opening of the new year. Distribution of merchandise is heavy and manufacturers are pressed for prompt delivery. Orders for spring goods came freely, and in some lines there is more than a sample business in fall weights. Tardy deliveries in the past lead purchasers to anticipate requirements more than heretofore and orders are being placed far in advance of actual needs." The foregoing is from the weekly trade review of R. G. Dun & Co. It continues:

#### Fuel Situation.

"The fuel situation is still the one seriously disturbing element, rendering abnormally high the cost of manufacturing and restricting the purchasing power of almost the entire population. Fortunately, this comes at a time of exceptional prosperity, or there would be a general contraction of consumption in other lines. There is little interruption to work because of labor disputes, but many operations are interrupted by the delay in transit of needed materials. Railway freight rates were advanced, and one result will be a loss of exportation from Eastern cities, the traffic being deflected to New Orleans.

#### Coke Is Scarce.

"In the iron and steel industry the most significant event of the week was the discussion regarding the profit-sharing proposal by the leading producer. Inadequate supplies of coke are still restricting operations. Contracts for the new year were made at \$4 a ton, but prompt deliveries often commanded \$6 or \$7, and at Chicago some sales were reported at \$10. Pig iron continues scarce, prices generally advancing during the last week, and the expected advance of \$1 a ton was made in wire products.

"Much new business has come forward, especially in bars and sheets, which had been comparatively quiet, while there is a vigorous demand for structural material to be used in bridge work and car shops.

#### Doings in Footwear.

"New England producers of footwear are busy on spring orders and a few deliveries have already been made, although shipments are light in these lines as yet.

Exceptional activity in rubber goods has reduced supplies to an unusually low point. Exports of hemlock sole continue heavy.

"The best event as to cottons has been the continued buying for export, which has exceeded expectations very largely. The print cloth market has ruled firm. The demand for overcoatings for next fall has not come up to expectations.

"Failures for the week numbered 250 in the United States, against 373 last year, and 24 in Canada, compared with 27 a year ago."

#### Grain Products.

Bradstreet's gives the following figures on grain:

"Wheat, including flour, exports for the week ending Jan. 8 aggregate 5,008,251 bushels, against 3,436,206 last week, 3,567,710 in this week a year ago, and 5,961,095 in 1901. Wheat exports since July aggregate 135,763,176 bushels, against 153,313,937 last season and 103,874,914 in 1900. Corn exports aggregate 2,856,486 bushels, against 2,637,542 last week, 130,873 a year ago and 4,897,345 in 1901. For the fiscal year exports are 13,583,406 bushels, against 20,557,354 last season and 103,750,545 in 1901."

#### SMALLPOX INVADERS ILLINOIS

State Board of Health Busy Fighting Outbreaks of the Pest.

Springfield, Ill., Jan. 10.—With the return of cold weather smallpox is again making its appearance in the state and the state board of health is being kept busy. Dr. E. F. Baker of Jacksonville was dispatched by Secretary Egan to Mosquito township, Christian county, to investigate an outbreak there, and Dr. J. J. Conner of Pana was sent to Gallatin and Hardin counties, where the disease is prevailing to an alarming extent.

Waupaca Post: Gradually but surely public indignation is being aroused against philanthropy which robs the poorer people through the exactions of an illegal monopoly, to make a gift of one-sixth of the gain thus ill-gotten to an institute of learning.

## ANTI-TRUST BILL.

House Judiciary Committee Favors the Littlefield Measure.

Washington, Jan. 10.—The House judiciary committee agreed to favorably report the bill introduced by Representative Littlefield to expedite suits pending or hereafter to be brought under the anti-trust law. A favorable report was authorized on the Senate bill increasing the salaries of justices of the Supreme Court and other judges of the United States, with certain amendments which reduce the salaries proposed for circuit judge to \$7,000 and district judges to \$6,000. A favorable report also was ordered on the Senate bill adding a judge to the eighth circuit.

As a result of extended consideration of the various pending anti-trust bills the subcommittee of the House judiciary committee, of which Representative Littlefield is chairman, has practically agreed on an anti-trust bill. It has not yet been adopted formally, but it is said to meet the approval of all members of the subcommittee. It will be laid before the full committee, when it is expected its features will be made public. It is understood that it provides for public utility, not through a new commission to be created, but through the interstate commerce commission. It is further understood that the bill covers the administration's suggestions for anti-trust legislation.

#### MENACE TO CUBAN TREATY.

Louisiana Growers Now Lead Opposition to the Pact.

Washington, Jan. 10.—Cuban reciprocity prostrates one foe only to have new opposition arise. The action of the national sugar beet manufacturers in deciding that their industry could stand the proposed 20 per cent reduction in duty was encouraging to the friends of the bill, who felt that the greatest obstacle had been removed. They quickly discovered that a new factor is to enter the field, a dormant interest that has been content to remain in the background as long as others were bearing the brunt of the fight. Now the Louisiana cane growers promise to oppose the treaty, and the senators from that state are organizing their party colleagues under the cry that Cuban reciprocity means the death of cane sugar in this country.

#### Politics Defeats Hobson.

Washington, Jan. 10.—Captain Hobson's petition to Congress to be placed upon the retired list was acted upon unfavorably by the House committee on naval affairs by a vote of 5 to 4. When it was whispered about in Democratic circles that Hobson, the hero of the Merrimac during the Spanish war, was seeking retirement to enter politics, the friends of Representative Bankhead of Alabama, in whose district Hobson has a residence, immediately rallied to the congressman's support, fearing that Hobson would defeat him, and it is understood that this influence caused the adverse report.

#### Safety Couplers.

Washington, Jan. 10.—The secretary of the interstate commerce commission, in a communication to the House, calls attention to a recent decision of the United States Circuit Court of Appeals for the eighth district, affecting the safety coupling act, which, he says, "if upheld by the Supreme Court, will have the effect of nullifying the purpose of the statute in a vital respect, the securing of such uniformity in applied automatic coupling devices as to permit all the cars in a train to be coupled and uncoupled without requiring men to go between the cars."

#### Philippine Currency.

Washington, Jan. 10.—The House committee on insular affairs has agreed to favorably report the bill introduced by Representative Cooper of Wisconsin to establish a currency system in the Philippines with certain amendments, one change proposed being that the gold coin of the United States and the silver coin authorized in the bill shall be legal tender in the islands. The bill as introduced provided that lawful money of the United States should be legal tender.

#### Controls Cattle Disease.

Washington, Jan. 10.—In a report received by Secretary Wilson, Dr. Salmon, the chief of the bureau of animal industry, who is in Boston directing the campaign against the foot and mouth epidemic, says that the disease will be stamped out this winter, unless it has been carried to some other part of the country where it is yet undiscovered.

#### Battle Creek Site.

#### Col. Hayes to Be Brigadier.

## MONUMENT TO JOHN M. PALMER

Citizens of Carlinville Start Movement for Legislative Action.

Springfield, Ill., Jan. 10.—The citizens of Carlinville have started a movement looking toward the erection in that city of a monument over the grave of General John M. Palmer, former governor of Illinois and United States senator from this state and candidate for president of the United States in 1896. The state legislature will be asked to make appropriation for the monument, and the citizens of Springfield will cooperate with those of Carlinville in the matter. It is believed there will be little or no opposition in the legislature, as the Palmer estate is scarcely sufficient to care for the general's widow in her declining days, and should the legislature decline to make the appropriation the grave will remain practically unmarked.

## Mrs. Laura S. Webb,

Vice-President of Women's Democratic Clubs of Northern Ohio.

THERE ARE MANY sickly women between the ages of 45 and 55, but there are very few invalids over 55 and 60 years of age. The change of life coming to a woman near her forty-fourth year, either makes her an invalid or gives her a new lease on life. Those who meet this change in ill health seldom live ten years afterward, while a woman who lays aside the active duties of womanhood in health seldom fails to live on in happiness, years after she has passed 60. This is truly a critical time.

Mrs. Laura S. Webb, of Toledo, Ohio, recognizes the change of life as a dangerous period and she also has faith in Wine of Cardui. She writes:

"As I had always been troubled more or less at the menstrual period, I dreaded

the change of life which was fast approaching. While visiting with a friend I noticed that she was taking your Wine of Cardui, and she was so enthusiastic about it that I decided to try a bottle. I experienced some relief the first month, so I kept on taking it for three months and now I menstruate with no pain and I shall take it off and on now until I have passed the climax. I do not dread it now, as I am sure that your Wine of Cardui will be of great benefit at this time."

Wine of Cardui is the remedy to re-inforce a woman against the shock that comes with the change of life. It re-establishes healthy functions after years of suffering. In doing this it has saved thousands of sufferers just in time. Do not wait until suffering is upon you. Thorough preparations should be made in advance. Begin the Wine of Cardui treatment today.

The wound was profuse, but he managed to make his way to the nearest farm house where the foot was bandaged. He was taken to the Hayner farm, and Mr. Hayner brought him to this city where Dr. Remor dressed the injured member. It will be several weeks before he will be able to leave the house.

**No Report As Yet:** The finance committee of the council have not yet instructed city clerk, manager, to prepare a statement of the cost of running the city stone crusher and the cost of the city hall as requested by them last Monday night. The committee evidently are taking their time before reporting.

**Special Meeting:** All the outgoing and newly elected officers and members of the staff of the Degree of Honor will meet at East Side Odd Fellows hall, Sunday afternoon at two o'clock. By order of the Captain.

**The Rock County Telephone Company** has just paid its regular semi-annual dividend to its stockholders. Its board of directors has instructed the secretary to purchase 4000 feet of 100 wire cable to extend from the central office to the corner of Rayline and Washington streets in the first ward, and an additional 100 number section to be added to the switchboard, giving capacity for 1000 subscribers. The company commenced business three and a half years ago with 350 subscribers, and its rapid growth proves that the people are pleased with low rates and good service.

**"The Liberty Belles"** Harry B. Smith's new musical comedy "The Liberty Belles" which will be presented by a company of well known artists and under the management of Frank Hennessey, will be at the Myers Grand, Thursday, January 15. The principals of the company are Nevada Hefron, Gertrude Millington, Maybelle Adams, Percy Leach, Harry Stuart, Rita Knight, Marie Twohey, Harry C. Lyons, Ethel Dean and others. Mr. Smith's new comedy is entirely humorous, and is presented in a prologue and two acts. The scenes represent a dormitory in a young ladies' seminary, the cooking school of "The Liberty Belles," and a hotel in an orange grove in Florida. During the presentation of the piece a great variety of musical numbers will be rendered, written expressly for this production by such well known composers, as Alce La-haume, Reginald DeKoven, Clifton Crawford, L. G. Gottschalk, H. T. Connell, Alfred E. Arons and William Accloe. The prologue serves to introduce the characters, and leads up to the cause of all the discomfitures of "The Liberty Belles" that follow. It is still their endeavors to earn their living by running a cooking school that serves the pretext for the second act, and the introduction of certain characters into that school brings about all sorts of entanglements and jealousy, always the promoter of discord into play with alarming, but exceedingly humorous effect. The presentation it is stated, will be elaborate and as Frank Hennessey is usually generous in the way of mounting productions, it may be taken for granted that it will be.

Mayor Rose of Milwaukee is very busy these days doing the axe act with considerable regularity.

### PRESS COMMENT

**Washington Star:** When Mascagni gets home he will tell his friends that the Mafia is nothing to what the people may encounter in America.

**Milwaukee Sentinel:** A Marconi gram is eventually to cost a cent a word. What a snap for our German friends who can say it by splicing a half dozen words into one.

**Madison Journal:** The Milwaukee Free Press is doing its best to keep alive the factional fight in the party. It seems impossible for that paper to mention the name of a stalwart without showing its teeth and growling.

**Exchange:** The food experiments at Washington have naturally stirred up the scientists who declare that alcohol has a food value. Maybe it has, but it has starved more women and children to death than old the famines of the world put together.

**Milwaukee Sentinel:** There may be good people of strong puritanical tendencies who will not be able to see anything good in the 350 cords of wood given by the Milwaukee brewers to the poor of this city, but there is none of that kind who are beneficiaries of the deed.

**Milwaukee Free Press:** The bank of Marlon, Waupaca county, heretofore a private concern, has been reorganized as a state bank, with a capital of \$25,000. It is noticed that S. L. Perry, publisher of The Advertiser, is one of the incorporators. We had wondered what Perry would do with his money.

**Green Bay Gazette:** The ancient plan of uniting northern Wisconsin with the upper peninsula of Michigan into a state to be known as the state of Superior is now attracting the attention of a few of the northern papers. A decade ago this plan was seriously considered, but given up as impossible. It will do now possibly to talk about, but that is all that can come of it.

**Washburn News:** A young man who was all through the Spanish-American war, and afterwards in the Philippines, was killed at New Richmond last week. He was breaking on a freight train and fell off the cars to his death. And yet some people say there is nothing in fate, while others say his time had come and he had to go.

**Syracuse Post Dispatch:** The Standard Oil company have just decided upon a plan for the pensioning of its old employees and the United States Steel corporation is about to make its employees stockholders in the concern. Probably the trust problem doesn't seem so grievous to these employees.

**Oshkosh Northwestern:** The Gillett Times challenges The Milwaukee Journal, of it the latter man has a better man for the United States senatorship than Senator Spooner, to trot him out. That's the idea—if any of the carpers and critics can show where the best interests of the republican party and the state can be better advanced by some other candidate for the senatorship, now is the time to speak up, or forever after hold your peace.

**THE BALLAD OF ELECTRIC LIGHT** How very strange it must have seemed in olden times of long ago, When of Electric Light none dreamed.

When witching belle and dapper beau Made merry 'neath the candles glow, Thinking the tapers wondrous bright, Little of Progress did they know, For progress only means more light.

In later years the lamplight gleamed, The course of progress is but slow, A noble sight 'twas then esteemed To see rich lamps set all a-row. Sometimes too high sometimes too low

They never burned exactly right, They were considered triumphs, though, For progress only means more light.

Then later still the gaslight streamed; As years pass on men wiser grow, A great invention this was deemed, Its brilliant rays so far would throw

A radiant light it would bestow; 'Twould turn to day the darkest night But 'tis no longer "come if faut" For progress only means more light.

D'ENVOI  
Electric force to thee we owe Unmeasured power, unbounded might And thy illuminations show That progress only means more light.

Caroline Wells.
